Note: This is the perfect event and venue for those who have traveled with me to India to connect with one another.

This is my fifth year at this historic Unitarian Universalist church built in 1875. The weekend workshop, all Saturday and Sunday, addresses how we can conduct and prepare ourselves to live a balanced life in the midst of all the chaos that we learn about each day. Instead of seeing these events as beyond our control, we can choose to find our own center of power and contribute positively through our lives. SPACE IS LIMITED.

KIRTAN CONCERT: FRIDAY, JUNE 10 AT 8:00 PM: The weekend includes a Kirtan Concert on (open to the public), during which I will be joined by Ben Fowler and local musicians, including Marty Quinn of the well known Doah World Music Ensemble, among others.

I am excited to be returning to Hollyhock, an extraordinary island getaway and retreat in the remote wilderness of British Columbia, Canada. In this pristine environment, eating delicious organic food prepared from the gardens and enjoying a hot tub right on the ocean front or under the stars at night, we get to Experience elevated, uplifted states of consciousness through the sacred practice of chanting, combined with movement and dance, and resonate with the deep insight and wisdom of the ancient Sanskrit mantras, as tools for healing and transformation.
